PRESS KIT

Mission

DiveAssist is an online resource for the international Dive community.

We provide protection to over 200.000 divers and the dive trade worldwide through insured membership.

We also provide charitable support to ensure diving, divers and the environment are protected for the generations.

DiveAssist provides divers and the diving industry worldwide:

Protection

We provide protection to divers and the dive trade through insured membership and support the dive trade with risk management.

DiveAssist is an online resource for the international Dive Trade operating worldwide.

Trade Membership of DiveAssist provides access to becoming an Affiliate selling insured membership to your clients.

Insured Membership

Through DiveAssist membership we help the dive community connect through their services, products, and job vacancies. Our annual insured membership can be bought online or through the DiveAssist member dive centres. Our short term at resort cover is available exclusively through member centres.

Vision

Charitable support

We provide charitable support to ensure diving, divers and the environment are protected for the generations. We donate to many diving projects:

- hyperbaric research support
- providing insurance policies
- to help develop diver's careers in Egypt
- funding scientific studies which help protect our aquatic marine wildlife
- funding dive projects such as initiatives to set up new artificial reef/wreck sites

DiveAssist and their Partners

DiveAssist Core Actions - DiveAssist provides emergency medical assistance and promoting dive safety.

MEDICAL ASSISTANCE - 24/7 Emergency Mayday assistance Hotline.

OUR INSURANCE PARTNERS

On 1st June 1987 **Dive Master Insurance Consultants** commenced its business as an independent insurance provider to recreational divers in the UK. Early on they innovated many new insurance products for the developing recreational sports diver market and the associated dive trade.

The company has grown over the years and its account now comprises a predominantly EU bias but also extends to the Red Sea, Australasia, Southeast Asia and Mexico. They maintain their independence by not only providing dive associations with products, but also a similar range of non-association backed insurance products to meet the diverse professional application of scuba diving.

Vienna Insurance Group is one of the oldest European insurance groups, representing 50 companies actively working in 25 countries and employing over 25,000 people. The company was established in Austria.

Compensa is the fastest growing insurance company offering a wide range of insurance solutions.

OUR VALUES

Best protection

Access to our group insurance benefits, provided to us by the insurance experts.

ENDANGERED MARINE LIFE

We support the conservation and protection of marine life and the environment.

24/7 SUPPORT

Our assistance group Mayday provides support to our members, so they can relax and enjoy their trip.

NEW DIVE DESTINATIONS

We review new routes and dive destinations, to let divers know what's hot!
